

# ***15831 Captiva Drive Captiva Island Florida***

***Take a step back in time at "The Ark". Stretching from the emerald waters of the Gulf to the serene setting on the Bay, this masterfully renovated home has been completed in a bristol fashion with olde world details evident throughout. Antique French terra-cotta flooring from Paris Ceramics, reclaimed cypress wood doors, Cypress tongue and groove ceilings, artful moldings, antique stain glass windows and repurposed brass portholes comprise the feel of being on a refined vintage vessel.***

***Enjoy expansive views across the bay and views to the gulf. A new survey is forthcoming and a design for an additional structure on the gulf side will be available. Zoning is TFC-2.***
