Irrigation & Water Rights

- Approved for up to 72 irrigated acres with 86.4 acre-feet/year and up to 800 GPM
- Approx. 5 acre-feet pumped in most recent year
- Senior water rights in place with room for future expansion or reconfiguration
- Initial 5-year perfection period expires 12/31/2026 (extension available)
- Recent test showed 105 GPM with potential to scale up to 3 million gallons/year

Water Infrastructure

- Three 85 ft wells feed water underground to a central-station computerized Netafim irrigation system that in-turn feeds water underground to any or all of the 16 independently controlled 2.5 acre zones. (limited cross-feeding)
- Gives a potential 40 acres of drip or flood irrigation
- Wells can run independently or in any combination
- Automated injection pump can run fertilizer into drip systems into any or all zones.
- Butler County rural water service to barn, greenhouse, and camp
- Clean, low-saline water ideal for produce and specialty crops
- Simple observation well (non-production) will need to be installed by buyer at state request for monitoring one of the wells for draw-down data

Organic-Ready Farming

- Organically managed for over 4 years Certifiable Organic Farm Status
- No herbicides or pesticides used
- Fertilized exclusively with 3-2-1 organic products
- Fully ready to pursue certified organic status

Soil Health & Land Stewardship

- Annual cover crops planted for four consecutive years
- Managed with long-term soil productivity and regenerative practices in mind
